PROFESSIONAL SUMMARY

Software Developer with experience building responsive, high-performance web applications using modern JavaScript frameworks. Skilled in React, Next.js, TypeScript, and state management tools, with a strong focus on clean UI/UX, reusable components, and efficient data handling. Passionate about delivering intuitive user experiences and scalable solutions.

WORK EXPERIENCE

Techies Africa - Contract

Frontend Developer | Aug 2025 - Nov 2025

- Developed and optimized internal dashboards using React, Next.js, TypeScript, and shadcn/UI, including protected pages, tables, filters, and forms.
- Integrated frontend features with backend APIs using TanStack Query, handling validation, permissions, and data workflows across multiple modules.
- Improved overall UI/UX and performance by refining components, fixing bugs, and ensuring consistent design patterns.

NASCO Group

Software Developer | Apr 2024 - May 2025

- Designed and developed responsive, user-friendly websites using modern frontend tools and best practices.
- Collaborated with backend teams to integrate APIs, optimize performance, and ensure seamless user experiences.

Freelance

Web Developer | 2022 - present

- Built and maintained functional, optimized web applications for clients across various industries.
- Integrated RESTful APIs, debugged complex issues, and refactored codebases for performance and maintainability.
- Delivered visually appealing, accessible websites tailored for business needs and user satisfaction.

PROJECTS

Portfolio Website — Next.js • TypeScript • Tailwind CSS • Framer Motion

Developed a modern, fully responsive portfolio showcasing projects, skills, and experience. Features dynamic animations, reusable components, and performance-focused UI/UX.

Smart Waste Management System — MERN • React Native • IoT

Built the full front and backend for a smart-bin tracking system with dashboards for real-time location, fill-level monitoring, and collection schedule management. Designed intuitive mobile interfaces for field operations.

Additional work and source code are available on my portfolio: judithyusuf.vercel.app and GitHub: github.com/judithlk

SKILLS

Frontend Development

- HTML5, CSS3, Sass, JavaScript (ES6+), TypeScript
- React.js, Next.js, React Native
- Tailwind CSS, Bootstrap, Framer Motion, jQuery

State Management & Data Handling

- Redux, TanStack Query, Axios, Fetch API, AJAX

Version Control & Collaboration

- Git, GitHub, pull requests, branching workflows

Performance & Accessibility

- Web performance optimization, responsive design, cross-browser compatibility, accessibility best practices (WCAG)

Project & Workflow

- Agile, Scrum, sprint planning, task estimation, documentation, stakeholder communication

Soft Skills

- Creativity, analytical thinking, attention to detail, adaptability, teamwork, leadership
- Clear written & verbal communication, problem-solving

EDUCATION

University of Ilorin | 2019-2025

Bachelor of Engineering in Computer Engineering

CERTIFICATION

Website Design and Development | 2019

Federal Information Center, Jos, Nigeria
